I don't think we have a complete list compiled yet, but when we do, I don't think there is a problem sharing it with you. Having a cohesive group would make the process much better and faster. I appreciate the offer.

Amy

Thanks. One more question: Is the list of parties that have responded positively to your request for participation something you could share with me? We would be interested in seeing if we might get some group organization going in advance of your contact back with us. This would facilitate the discussion you propose.

Thank you,

I'm hoping we will have everything in our system by early next year. I would hope we would be contacting everyone by the end of the 1st quarter of 2016.

Thank you both. Do you have an estimate as to when we might hear from you?

We are still waiting for all of our costs to be submitted so they can be reflected on our accounting system. Once we know our past costs, we will be inviting all that are interested to meet. I will update our files to reflect your new contact information. Thank you for giving us that information.

I am the attorney for Enterprise Products for the CES Environmental Services Site. I have recently changed firms and my contact information is listed below. Could you let me know if there have been any developments since Enterprise Products responded to the General Notice Letter it received in this matter?

Thank you,
